[Portfolio link ↗](#)

PROJECTS

Developed YouTube-Inspired Platform ↗

Dec 2024 - Jan 2025

- YoutubeClone: A full-stack web application built with React, Node.js, Express.js, Axios, and MongoDB, allowing users to browse, upload, and watch videos.
- Features include video streaming, user authentication, search functionality, likes, comments, and a responsive UI.

ShoppYGlobe-FrontEnd React ↗

Nov 2024

- ShoppYGlobe: An e-commerce web application enabling seamless online shopping with a user-friendly interface.
- Features include product browsing, user authentication, secure checkout, and a responsive design, ensuring a smooth shopping experience. It also supports order tracking and multiple payment options.

Weather Forecast Application ↗

Jun 2024 - Jul 2024

- Weather Forecast Application: A web app built with HTML, CSS, and JavaScript to display real-time weather updates.
- Features include fetching weather data using an API, displaying temperature, humidity, and wind speed. It also supports location-based weather updates and a responsive design for a seamless user experience.

SKILLS

- | | | |
|--------------|----------------|-------------------|
| • Git | • HTML | • CSS |
| • JavaScript | • Tailwind CSS | • Redux |
| • Node.js | • Express.js | • ReactJS |
| • MongoDB | • REST API | • Problem Solving |

ADDITIONAL DETAILS

- Received APJ Abdul Kalam Children Scientist Award in recognition of innovative contributions.

Developed APIs with Node.js and Express.js for ShoppYGlobe ↗

Dec 2024

- ShoppYGlobe Backend: A robust backend for an e-commerce platform, ensuring secure and efficient data management.
- Features include user authentication, product management, order processing, and secure payment integration. It also supports API endpoints for seamless front-end communication and scalable performance.

To-Do List ↗

Oct 2024

- To-Do List App: A simple React-based task management application for organizing daily tasks efficiently.
- Features include adding, editing, and deleting tasks with a user-friendly interface. It also supports task filtering, local storage persistence, and a responsive design for better usability.

Portfolio Website ↗

Jul 2024

- A modern, responsive React.js portfolio built with Tailwind CSS and Framer Motion for smooth animations. Showcases projects, skills, and experience with interactive UI elements. Features dark mode, contact form, and animated page transitions. Fully optimized for performance and mobile responsiveness.
